Seminar

AI in education: schools and universities

Practical ways schools and universities can use AI for admissions, admin work and student support.

Education teams spend many hours on admissions, attendance, reports and parent communication. This seminar shows how AI and automation can free that time for teaching and student care.

What you will learn

- Automating admissions and enquiries
- Attendance, reports and parent updates
- AI tutors and student support
- Clear rules for AI use by students and staff

Agenda

1. Registration and coffee
2. AI in education today
3. Admin automation examples
4. Student support and academic integrity
5. Questions and discussion
