Seminar

AI in finance and accounting teams

How finance teams use AI to process invoices, reconcile accounts and prepare reports faster and with fewer errors.

Finance work is full of repetitive steps that AI can now handle reliably. This seminar walks through invoices, expenses, reconciliations and reporting, with controls that auditors will accept.

What you will learn

- Reading invoices and receipts automatically
- Faster reconciliations and month-end close
- AI-assisted reporting and analysis
- Controls, approvals and audit trails
