Seminar

AI and automation in healthcare operations

How clinics and hospitals use AI to cut waiting times, simplify bookings and reduce paperwork.

This seminar focuses on the operational side of healthcare: bookings, reminders, patient questions, insurance paperwork and reporting. We look at what works today and how to start safely.

What you will learn

- Automating bookings, reminders and follow-ups
- AI assistants for patient questions
- Reducing insurance and admin paperwork
- Patient data privacy and safety

Agenda

1. Registration and coffee
2. Where time is lost in healthcare operations
3. Case examples: clinics and hospitals
4. Privacy, safety and regulation
5. Questions and discussion
