Webinar

AI voice agents for calls and bookings

See an AI voice agent answer calls, book appointments and send summaries, in Arabic and English.

Missed calls are missed business. In this webinar we show how AI voice agents answer the phone, understand what the caller needs, book appointments in your calendar and send a written summary to your team.

What you will learn

- How AI voice agents work
- Good first use cases: bookings, FAQs and follow-ups
- Arabic and English voices and accents
- Privacy, consent and call recording

Agenda

1. Voice AI today (10 min)
2. Live demo: booking call (20 min)
3. Connecting to your calendar and CRM (15 min)
4. Questions and answers (15 min)
