Automation.bh

Webinar

Automate your first workflow with n8n

Watch us build a real business workflow in n8n, from a web form to email, spreadsheet and WhatsApp, step by step.

n8n is one of the most flexible tools for connecting the apps your business already uses. In this live session we build a complete workflow together and share the template with all attendees.

What you will learn

- How n8n works: triggers, nodes and data
- Connecting forms, email, Google Sheets and WhatsApp
- Adding an AI step to sort and summarise requests
- Testing, error handling and going live

Agenda

1. Why workflow automation (10 min)
2. n8n basics (15 min)
3. Live build: lead capture workflow (35 min)
4. Questions and answers (15 min)

DATE
2 December 2026, 17:00 – 18:15
