Automation.bh

Workshop

Build your first AI agent (no code)

A hands-on, two-day workshop: leave with a working AI agent connected to your own tools.

In this hands-on workshop each participant designs, builds and tests a real AI agent for a task from their own work, using no-code tools. Our trainers guide you at every step.

What you will learn

- Designing an agent: goal, tools, rules
- Connecting the agent to email, sheets and chat
- Writing clear instructions and guardrails
- Testing, improving and sharing your agent

Agenda

1. Day 1: AI agents basics and choosing your use case
2. Day 1: Designing your agent and its tools
3. Day 2: Building and connecting your agent
4. Day 2: Testing, guardrails and presentations
